## Experience

### NEXT ORAL

**Remote**, June 2025 – Date

#### Software Developer, Fullstack

- Worked with a cross functional team comprising of a team lead and two product designers to achieve a scalable dental clinic management software.
- Worked closely with Team Lead to achieve a doctor friendly user interface.
- Worked with Typescript, Next Js and typescript Remote Procedure Call (tRPC) to achieve a FullStack Software.
- Improved communication and problem solving skill as per the demand of the complex software.

### NETMIFI

**Hybrid**, June 2024 – Date

#### Software Engineer and Software Team Lead

- Worked with a cross functional team comprising of product designers and software developers to achieve a scalable educational technology software to solve immediate needs.
- Managed a team and worked closely with both design and engineering department to bridge the communication gap between them.
- Improved communication and leadership skills as per the demands of the robust project.

### OGWUGO LIMITED

**Hybrid**, May 2024–Oct–2024

#### Software Developer Intern, Frontend

- Partnered with a frontend developer to build a robust and responsive web application interface, ensuring seamless user experience and functionality.
- Collaborated closely with product designers to develop a UI adhering to industry's best practices, enhancing usability and alignment with design standards.
- Integrated REST APIs in collaboration with the backend team, using modern tools and best practices to optimize data fetching and connectivity.
- Worked in sync with the project manager and team mates, maintaining alignment with the development timeline and milestones.
- Learnt and improved skills on the job as per the demands of the project which includes building type-safe applications with Typescript and cross-communication with team members.

- Fostered an engaging, interactive learning environment to enhance student comprehension and participation.
- Maintained high levels of customer satisfaction by delivering quality support and addressing client needs effectively.
- Assisted students with debugging and troubleshooting, guiding them through learning challenges to improve technical skills.

## Education

COMPUTER SCIENCE	2021-2025 (In-View)
UNIVERSITY OF NIGERIA NSUKKA	Bachelor of Science (BSc)

## Technical Skills

**Frontend Development:** HTML, CSS, SCSS, React, Svelte, Shadcn UI, Tailwind CSS, EJS, jQuery, Bootstrap

**Backend Development:** Node.js, Express, Mongoose, type ORM, Next JS

**Database Management:** SQLite, MySQL, MongoDB, PostgreSQL

**API Development and Integration:** RESTful APIs,, Postman, Thunder Client, tRPC

**Build Tools:** Webpack, Babel, NPM, Yarn, PNPM, Turbo/Mono repo

**Version Control:** Git, GitHub, GitLab

**Debugging and Testing:** Postman, Thunder Client, Vercel, Firebase, Netlify, React Dev tools, ts-node, visual studio code debugger.

## Programming Languages

JavaScript, TypeScript, PHP

## Soft Skills

Communication, Collaboration, Problem-solving, Quick Learning,  
Effective Time management, Resilience, Leadership,  
Stress management, Adaptability.

## Languages

ENGLISH (Native)

IGBO (Native)
