SUMMARY

Full-Stack Software Developer with 2+ years of professional experience (4+ years overall) building and deploying scalable web applications using JavaScript, TypeScript, React, Next.js, Node.js, and modern databases. Skilled in frontend performance optimization, API development, and backend scalability. Experienced in Docker-based deployments, CI/CD pipelines, and cloud hosting (Vercel, AWS). Adept at leading teams, mentoring developers, and delivering end-to-end solutions that improve performance and user satisfaction.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP

Frontend: React, Next.js, HTML, CSS, SCSS, Svelte, Tailwind CSS, Shadcn UI, Bootstrap, jQuery, EJS, Redux, Zustand, Easy-Peasy

Backend: Node.js, Express.js, tRPC, TypeORM, Mongoose, REST APIs, Authentication & Authorization (JWT, OAuth), Microservices Architecture

Databases: MongoDB, PostgreSQL, MySQL, SQLite

DevOps & Tools: Git, GitHub, GitLab, Docker, CI/CD (GitHub Actions), Firebase, Vercel, Netlify, AWS, Linear

(Build & Workflow: Webpack, Babel, NPM, Yarn, PNPM, Monorepo (Turborepo)

Testing & Debugging: React DevTools, ts-node, VS Code Debugger, Jest

Soft Skills: Collaboration • Problem-Solving • Leadership • Communication • Adaptability • Time Management • Quick Learning • Resilience • Mentorship

WORK EXPERIENCE

Software Developer (Full-Stack) — Next Oral

Remote | June 2025 – Present

- Built a dental clinic management system with Next.js, TypeScript, and tRPC, enabling secure and scalable operations.
- Implemented role-based authentication and authorization for doctors and patients, enhancing data security.
- Collaborated with designers to deliver a user-friendly doctor dashboard, reducing booking errors by 15%.
- Optimized SSR performance with Next.js, decreasing page response time by 30%.

Software Engineer & Team Lead — Netmifi

Hybrid | June 2024 – Present

- Led a team of 4 developers and designers to build an ed-tech platform, achieving key milestones ahead of schedule.
- Integrated RESTful APIs with Node.js and Express, improving data-fetching speed by 20%.
- Improved team efficiency by introducing agile practices and code review standards, reducing merge conflicts.
- Mentored junior developers, enhancing team skills and accelerating delivery timelines.

Software Developer Intern (Frontend) — Ogwugo Limited

Hybrid | May 2024 – Oct 2024

- Developed responsive UIs with React, TypeScript, ShadcnUI and Tailwind CSS, improving load speed by 20%.
- Integrated REST APIs, ensuring seamless frontend–backend communication and reducing API-related errors.
- Applied cross-browser testing and debugging, ensuring consistent performance across Chrome, Firefox, and Safari.
- Reduced bug resolution time by 25% using React DevTools and VS Code debugger.

Coding Tutor & Systems Operator — Peristera Technologies

On-site | Oct 2021 – Jul 2022

- Delivered practical training in JavaScript and PHP, enabling students to build functional projects.
- Guided learners through debugging and problem-solving, improving their technical confidence by 30%.
- Provided system operations and IT support, ensuring smooth learning experiences for clients.

EDUCATION

B.Sc. Computer Science (In Progress) — University of Nigeria, Nsukka

Expected Graduation: 2025 | Second-Class Upper (2:1)

PROJECTS

- **E-Learning Platform (MERN Stack):** Designed and developed an LMS with instructor/student roles and JWT authentication.
- **Stake Art (Web3 Auction Platform):** Built an NFT-based art auction site with wallet integration and real-time bidding.
- **Weight Management Desktop App (Electron + SQLite):** Created a weighbridge management tool for recording and analyzing truck weights.
- **React Next.js Smart Snippet:** Developed a collection of quick start snippets extension for React and Next.js developers with context and workspace awareness and dynamic naming conventions with typescript support.

KEY MILESTONES

- Optimized API response times by 30%, handling 500+ daily requests.
- Applied React compound component design pattern to build reusable UI modules, reducing re-renders and improving performance by 20%.
- Top 10 finalist in the Asset Chain Hackathon organized with Startup South (2024), competing among 100+ participants.
- Top 5 Finalist, Enugu Tech Fest Hackathon (2024), competing among 20+ teams.
